Dear Pete:

This is to thank AWT Environmental Services Inc. (AWT) for providing Geneva Pharmaceuticals/Invamed Inc. with an excellent service over past years.

AWT has certainly provided excellent service in handling our hazardous as well as non-hazardous waste loads over past eight years. Your support staff and knowledgeable field technicians have always been there to promptly help us out for any issue, ranging from scheduling of a pick-up for a load to carrying out lab-pack activity on site. AWT's prompt service has been a major plus during our dealings. Also follow-up with TSDf to attain disposal certificates from your end for our loads has been appreciated.

I wish you all the best for your business.

Sincerely,

Dhruti P. Thaker
