Subject: AWT's Review

As Project Engineer for the last nine years I have had the opportunity to work with many companies on a variety of different scopes. I strongly feel that good work should not be overlooked but commended. Therefore, I would like to comment on the quality of work that is being conducted at the Park Ridge Pistol Range. Your assistance and the quality of work from John Long and his crew are exceptional and more than we ever expected. Their extra time and effort is greatly appreciated. I value all you have done to make this phase of our project possible and will recommend your company to others. For this reason, I would like to request a proposal for a follow up cleanup prior to the opening of our facility. If there are any questions, don't hesitate to call me at 201-248-1193.
