Re: UST Decommissioning
ULTIMATE CAR CARE SITE
Neptune, NJ
FPA No. 08E009A

Dear Mr. Postorino,

As you know we are wrapping up the above site today. I wanted to let you know how well the project went due to the efforts of your field crew. Pete Harten and the guys (Jimmy in particular) did a great job with a very complex situation. The client was pleased; and no complaints or problems were raised from the local residents or authorities, which was a huge deal due to the amount of time we had roadways temporarily blocked with equipment. Furthermore, the client was able to conduct his daily operations with very little interruption.

Thanks for all the hard work. I look forward to our next project.

Very truly yours,

FRENCH & PARRELLO ASSOCIATES, P.A.
